

Early Childhood Program

Next Steps is now offering an exciting unique learning environment which combines both individual therapy time and fun small-group preschool type opportunities including:

- ▶ THEME-BASED LEARNING
- ▶ DAILY CIRCLE TIME
- ▶ FACILITATED SOCIAL OPPORTUNITIES
- ▶ EXPLORATORY ART AND SENSORY PLAY
- ▶ FUN MOTOR ACTIVITIES

Learning opportunities are maximized by therapy being provided in a

ONE ON ONE RATIO

and faded as quickly as clinically appropriate.

PARTNERSHIPS

Early Intensive Behavioral Intervention (EIBI) has decades of research to support its effectiveness in closing the gap between children diagnosed with autism or related disabilities and their neurotypical peers. EIBI includes at least 15-20 hours per week of therapy, by a highly trained therapist, direct and indirect supervision by a BCBA, plus caregiver training. **Next Steps' program is focused on school-readiness skills so children are well prepared for inclusion.**

Collaboration is a
hallmark of our services

Our team is eager to partner with parents, teachers, and other providers to maximize the learning of our clients!
